

Liability Endorsement

Contractors and Subcontractors Extension

By way of endorsement to the **Policy**, the parties agree that the Definition of Insured is extended to include any contractor or subcontractor employed by the Insured but only whilst carrying out work for and on behalf of the **Insured**, provided they are not otherwise insured under any other policy, provided that:

- a) the operations and activities of the subsidiary are the same **Business** description as stipulated on the **Policy Certificate**;
- b) The coverage under Section One (Public and Products Liability) condition 5.6 Cross Liability does not apply to this Endorsement.

In all other respects the **Policy** remains unaltered.
