

Electrical/Electromagnetic Field (EFL/EMF) Exclusion

By way of endorsement to the **Policy**, the parties agree notwithstanding anything contained in the **Policy** to the contrary:

This **Policy** does not apply to, and we shall have no duty of any kind with respect to, any **Personal Injury, Property Damage**, expense, cost, loss, liability or legal obligation arising out of or allegedly arising out of, or in any way related to extremely low frequency electrical fields (EFL) and/or extremely low frequency electromagnetic fields (EMF).

Extremely low frequency electrical fields (EFL) and/or extremely low frequency electromagnetic fields (EMF), means the 50/60 Hertz power mains frequency electric and magnetic fields or invisible lines of force that occur wherever electricity is present.

This exclusion applies, but is not limited, to any **Personal Injury, Property Damage**, expense, cost, loss, liability or legal obligation to test for, monitor, abate, weaken, control or take any other remedial action with respect to EMF.

The addition of this endorsement does not imply that other **Policy** provisions, including but not limited to any pollution exclusion, do not otherwise preclude or exclude coverage for EFL/EMF related **Personal Injury, Property Damage**, expense, cost, loss, liability or legal obligation.

In all other respects this **Policy** remains unaltered.
